WINDING UP THE WORK

Coliseum, St. Louis, June 16, Noon.
—The Democratic National Con-
vention at 11:26 this morning began its
last session. The only remaining
work of the convention is the adop-
tion of the party platform.

ATTACK ON HUGHES

Reed of Missouri, addressed the
convention while awaiting the report
of the resolutions committee. He at-
tacked Justice Hughes, the republi-
can nominee, quoting a statement at-
tributed to Hughes in 1912 declaring
against a supreme court justice en-
tering politics.PLEDGE BROKEN BY THE UN-
ITED PRESSSenator Stone, chairman of the
resolutions committee, when he en-
tered the Coliseum at 12:14 was told
that the United Press had violated its
pledge not to release the platform as
perfected by the committee for pub-
lication until it had been presented to
the convention. Senator Stone then
consented to the immediate publica-
tion of the platform.

MINORITY REPORT

Senators Walsh and Hollis read the
platform. Governor Ferguson of
Texas, presented the minority report,
offering a substitute for the women
suffrage plank withholding endorse-
ments. Senator Stone moved for the
adoption of the platform.

WOULD BE OUT OF PLACE

Delegate Leo Masney, of Massa-
chusetts, objected to its adoption be-
cause he wanted a plank expressing
sympathy for "the people of Ireland."
He was jeered.

Sachsen and two destroyers, were
attacked by six Russian destroyers
and submarines. The Germans fled
and it is believed that the twelve
merchantmen were sunk. A trawler
arrived at Nykoping with 150 Ger-
man survivors.When you want the editorial de-
partment at the Star office call "five-

PROOF OF OCALA'S
STEADY PROGRESSLIST OF NEW ENTERPRISES FURNISHED TO INDUS-
TRIAL AGENT OF SEABOARD AIR LINEOcala's progress during the recent
twelve months has been notable. The
public utilities have been greatly in-
creased, and a number of large en-
terprises have got under way. A list
of these will be sent by L. R. Tramm-
ell, secretary of the board of trade,
to B. L. Hammer, general industrial
agent of the Seaboard Air Line, who
has asked for facts concerning this
city to be used in a page advertise-
ment in one of the leading magazines.
Following the list of some of the
things recently started in Ocala:
A \$100,000 sewerage system, with
Imhoff tanks of the very latest de-
sign.
A \$100,000 light and water plant
that will be one of the most com-
plete in the South and one of the
most unique in the country.
Plans are being prepared for a mu-
nicipal park.
A union station is building.

by a New Jersey company is being
rebuilt, and the mains extended
throughout the city.

plant at Meadows in this county, for
the manufacture of ammoniated peat.
The Florida Soft Phosphate & Lime
Co., a corporation capitalized at
\$750,000, with its main offices in this
city, has begun the operation of a

built and are building.

marked increase.GENERAL STRIKE
MAY FOLLOWRejection by Officials of the Reason-
able Demands of the Railroad
Workers

(Associated Press)

New York, June 16.—Ballots for a
vote by four unions of railway em-
ployees on the question of authoriz-
ing union officials to call a strike will
probably be sent from headquarters
by union officials tomorrow. Imme-
diately on the termination of the con-
ference with managers yesterday, of-
ficials began to formulate the ques-
tion. If the men vote to strike an-
other conference may be sought.

REQUESTS REFUSED

New York, June 16.—More than
400,000 union and non-union railroad
workers of America will vote within a
month on the advisability of calling a
general strike to enforce their de-
mands for an eight-hour day and time
and a half for overtime, as a result
of the failure yesterday by the repre-
sentatives of the railroads and the
men to reach a settlement after a
two weeks' conference.

RIFLEMEN ARE READY

Boys in Khaki Only too Willing to
Go to the Mexican
BorderThere is a strong probability of the
National Guard of Florida being dis-
patched to the Mexican border. Cap-
tain Edward Drake said today that
the Rifles are ready to move when-
ever the order comes. He has heard
nothing definite, but says that the
sudden receipt of orders would not
surprise him. His attention was called
to the effect that the South Carolina
troops might be sent to Mexico be-
fore a week is up. Captain Drake
said that this would not be unexpec-
ted.The dispatch from Washington
says:
"For the first time since interna-
tional complications with Mexico be-
came acute, there is a strong possi-
bility of the war department calling
on the South Carolina National
Guard."
"While department officials will not
say that a real step in this direction
is being taken, it is known that the
offices of the different states asking
that they get their men in good shape
generally, figures have been submit-
ted showing just what proportion of
the National Guard could be depend-
ed upon. That some suitable mobiliza-
tion point may be picked in the
South by the war department for con-
centration purposes soon is not doubt-
ed by those here who know the situa-
tion."

Forethought

People are learning that a little
forethought often saves them a big
expense. Here is an instance: "I do
not believe that our family has been
without Chamberlain's Colic, Cholera
and Diarrhoea Remedy since we com-
menced keeping house years ago.
When we go on an extended visit we
take it with us." Obtainable every-
where. Adv.ITALIANS REPULSED

TEUTON ATTACK WITH DESTRUCTIVE FIRE

(Associated Press)

London, June 16.—A violent at-
tack on Italian positions on the
Asiago plateau was made yesterday
by Austro-Hungarians, says the Rome
war office. It is estimated that 18-
000 troops attacked in dense forma-
tion. The attack was repulsed. The
Teutons left piles of corpses before
the Italian trenches.

RUSSIAN DRIVE UNCHECKED

London, June 16.—Russian success-
es along the southern portion of the
eastern front continue, says the Rus-
sian official statement. An additional
hundred officers and 14,000 men have
been captured; the report asserts.FRENCH MET ATTACKS WITH A
DEADLY FIREParis, June 16.—Powerful German
attacks on the French southeast of
Thiaumont farm, on the Verdun front,
broke down under French machine
gun and infantry fire, says the war
office. The assaults began at six
o'clock last night on the right bank
of the Meuse, from hill 321 to hill
320. Simultaneously another attack
was launched at the southern edge of
the Caillette wood. All were repul-
sed. The Germans made a number of
counter attacks on the French. The
French yesterday took the southern
slope of Deadman's hill, taking 185
prisoners. All counter attacks failed.

NO TRUST IN THEIR NEIGHBOR

London, June 16.—An Athens dis-
patch says it is reported there that
the Bulgarians are withdrawing the
majority of their forces from Saloniki
to the Rumanian frontier.

CITY WAS TOO SLOW

And is Making a Mistake in the Feel-
ing-Displayed in the Union
Depot AgitationAt the meeting of the Board of
Trade Wednesday night there was a
general discussion of the attitude
shown by a certain part of the city
toward the railroads as a result of
the union station agitation. The con-
sensus of opinion was that a serious
mistake was being made in adopting
retaliatory measures and antagoniz-
ing the railroads. The feeling is gen-
eral that the railroads are not at
fault in the matter of locating the
station, but that the city failed to
take action soon enough.It was not so stated at the Board
of Trade meeting, but the sit upon
which the station is building was ap-
proved by the committee which was
in charge of promoting the union
station in the first place, and this ap-
proval was evidently accepted by the
city at the time.

Bowel Complaints in India

In a lecture at one of the Des
Moines, Iowa, churches a missionary
from India told of going into the in-
terior of India, where he was taken
sick, and that he had a bottle of
Chamberlain's Colic, Cholera and
Diarrhoea Remedy with him and be-
lieved that it saved his life. This
remedy is used successfully in India
both as a preventive and cure for
cholera. You may know from this
that it can be depended upon for the
milder forms of bowel complaint that
occur in this country. Obtainable
everywhere. Adv.COUNTING VOTES IN
